

Schott Employer Profile

Work Abroad Program Model

The SCHOTT Summer Internship Program in Germany provides an excellent opportunity for college and university students to gain international work experience at SCHOTT AG in Germany, improve their German language skills, and experience German culture firsthand. Internship placements at SCHOTT are available in business/marketing & PR, engineering, manufacturing, information technology, physics and material sciences. Internships are three months and begin in late May each year. In some cases, participants may extend their internships. All internships at SCHOTT are generously compensated and include free housing.

Company Profile

For 125 years SCHOTT has been developing and manufacturing special glass, special materials, components and systems, to improve how people live and work. By providing innovative ideas and outstanding expertise in technology, SCHOTT offers solutions for the future and takes its responsibility for society and the environment very seriously.

Our main markets are household appliances, pharmaceutical industries, solar energy, electronics, optics as well as automotive. With our products and services, our objective is to contribute to the success of our customers.

SCHOTT has manufacturing sites and sales offices close to its customers on all major markets.

For the systematic improvement of efficiency and customer satisfaction, management and employees align themselves to SCHOTT's core values: accountability, market-driven innovation, technological expertise, integrity and reliability, entrepreneurship.

The company's technological and economic expertise goes hand in hand with its social and environmental responsibility.
